Profile Summary

Software Developer with hands-on experience in PHP-based backend development, full-stack application development, Java programming, and responsive web design. Strong foundation in data structures, object-oriented programming, RESTful APIs, and relational databases. Skilled in building scalable applications, optimizing backend performance, debugging complex issues, and collaborating within agile development teams. Solved 200+ coding problems across LeetCode and HackerRank, demonstrating strong problem-solving and analytical abilities.

Skills

Languages: PHP, Java, C++ , HTML, CSS

Frameworks & APIs: JSP, Servlets, Spring Boot, REST APIs, Core PHP

Databases: MySQL, PostgreSQL

Tools & IDEs: Git, VS Code, Eclipse, NetBeans

Core Concepts: OOP Concepts, DBMS, Data Structures and Algorithms, CRUD Operations

Internship

Software Developer, Maharana Computer Classes

Jan 2025 – Feb 2026

- Developed and maintained web applications using **PHP, MySQL, Java, and Spring Boot**.
- Built backend modules for **student management, attendance, and fee tracking systems**.
- Designed and optimized **MySQL databases** and implemented secure CRUD operations using **Hibernate ORM**.
- Developed and integrated **RESTful APIs**, improving system performance and data handling.
- Technologies:** PHP, MySQL, Java, Spring Boot, Hibernate ORM, REST API

Software Developer Engineer Intern, Bluestock.in

June 2025 – August 2025

- Developed an IPO dashboard displaying **multiple IPOs daily**, improving market data accessibility.
- Built **RESTful APIs** with Spring Boot and PostgreSQL, reducing data latency.
- Collaborated in Agile teams with Git, improving sprint efficiency.
- Technologies:** Java, Spring Boot, REST API, Hibernate, PostgreSQL | **IDE:** IntelliJ IDEA

Projects

Student Result Management System – Role: PHP Developer

- Developed a web-based application to manage student records, exam results, and academic performance efficiently.
- Implemented secure CRUD operations for students, subjects, marks, and result generation using PHP and MySQL.
- Used AJAX and jQuery to enable dynamic result fetching and form submission without page reloads.
- Improved data accuracy and accessibility for administrators and students through role-based access.
- Technologies:** PHP, MySQL, HTML, CSS, AJAX, jQuery

TalentTrack – Job Discovery Platform – Role: Full Stack Developer

- Built a web platform for users to search, apply, and track job applications.
- Developed secure login, job filters, real-time tracking, and admin dashboards.
- Reduced manual job tracking time using dashboards and email alerts.
- Technologies:** HTML, CSS, JavaScript, Java, JSP, Servlets | **Database:** MySQL

Education

Amity University Jharkhand — B.Tech in Computer Science and Engineering (CGPA: 8.34)

June 2022 – June 2026

Geeta Science Inter College, Hazaribagh — Intermediate in Science (79.8%)

April 2020 – June 2022

Certifications

- Database Fundamentals – Infosys Springboard
- Java Basic Certification – HackerRank
- Software Engineer Intern Certification – HackerRank
- Internet of Things – NPTEL (IIT Kharagpur, Silver Badge)
